

April 29-May 3, 2024

Welcome to a new week! We are almost to May and the students have started their countdown to summer. There are about 24 days left! Here are notes for the week:

- ★ Reminders:
 - Please continue to support our chapel mission for MLC.
 - Keep filling out your worship attendance sheets in your red folder.
 - The math fact calendar for April will be the last one for the year.
- ★ In science, we are moving on to study animal habitats. If anyone has books they would like to share, please feel free to bring them in!
- ★ Reminder to send a cold lunch with your child on Thursday, May 2 for the field trip to Luther Prep.
- ★ Remember to also bring back the permission slip for our Beaver Dam field trip on Friday, May 10.
- ★ I will be sending home a sheet explaining the first grade countdown to summer. Every year we do 10 special days and count backwards to the final day as we blast off to summer!
- ★ Here's what we will be learning this week:
 - Science we will study animal habitats.
 - Math we are counting quarters, subtracting two digit numbers, and reading temperatures on a thermometer.
 - Christ Light we will learn stories about Hezekiah.
 - Superkids we will learn IR and UR and start writing our fictional stories.
 - Music we will work on studying a hymn for the week and learning the song for graduation.
