

April 14-18, 2025

This week is a four day week! I pray everyone has a blessed Easter with their families. Enjoy each other while remembering Jesus' resurrection! Here are the notes for the week:

★ Reminders:

- Our fourth quarter mission is Martin Luther College. This is the college that provides many of our WELS schools and churches with teachers and pastors.
- We have no school on Friday, April 18 or Monday, April 21.

★ Class Pet

- Thank you Miles for bringing home our class pet.

★ Field Trip

- A slip was sent home last week about our field trip to the Henry Vilas Zoo. Please make sure it is returned in a timely manner so we can organize drivers. Thank you!

★ Market Day and Fun Run

- Thank you to all the first graders for working so hard on market day products. Everyone sold their items and earned some money! Also, thank you to all who participated in the fun run this Saturday. It was great to see everyone exercising their bodies while enjoying each others company.

★ Plant Growing!

- This week the students will be planting some herbs in a pot! This will teach us about how to care for plants and how we can use fresh food to help our bodies grow! Be looking for them to come home before Easter (hopefully).

★ Here's what we will be learning this week:

- Math we will be dividing, measuring with liquids, and taking a test.
- Superkids we will learn about the pattern IR and UR and working on memory words. We will also work on some Easter activity writing.
- Christ Light we will learn about Jesus Burial and Resurrection.
- Social Studies we will talk about other cultures and how they influence us in America
- Music we will start learning our Easter song.
- Gym class we will play kickball.
