

## April 28-May 2, 2025

We are almost to May! Can you believe it? Hopefully our May weather will show up and stay for awhile. Here are the notes for the week:

### ★ Reminders:

- Our fourth quarter mission is Martin Luther College. This is the college that provides many of our WELS schools and churches with teachers and pastors.
- We have our field trip on Friday. Please watch the weather because we will be outside eating and playing before the play. Also, pack a cold lunch and drink for that day. Remember to wear your red Raiders shirt again!

### ★ Class Pet

- Thank you Greyson for bringing home our class pet.

### ★ Field Trip

- Thank you to everyone who drove on the field trip and help supervise the children. It was a chilly yet fun day!

### ★ Plant Growing!

- Some plants have started to grow! Hoping the rest will soon follow! We are definitely learning to be patient through this process.

### ★ Here's what we will be learning this week:

- Math we will be testing and reviewing counting money.
- Superkids we will learn about the pattern OI and OY, write an action poem, and work on longer journal writing.
- Christ Light we will learn about Thomas believing and how Jesus finally sees his disciples after his resurrection.
- Science we will continue to study plant parts and taste some plant parts.
- Music we will start learning our song for graduation and learn more songs to help us practice rhythm and beat.
- Gym class we will work on floor hockey skills.

Mrs. Trimmer
