

May 5-9, 2025

This week is a four day week! I pray everyone has a blessed Easter with their families. Enjoy each other while remembering Jesus' resurrection! Here are the notes for the week:

★ Reminders:

- Our fourth quarter mission is Martin Luther College. This is the college that provides many of our WELS schools and churches with teachers and pastors.
- Continue to check the memory work schedule. I have many students not able to recite them. They are important in helping thn their spiritual life.

★ Class Pet

- Thank you Amelia for bringing home our class pet.

★ 10 Day Countdown!

- Next week, we start are 10 day countdown. For the 10 days before school ends, we will be doing a fun activity each day. I will hopefully be sending home a note later this week or beginning of next week.

★ Plants

- Most of our plants have gone home with good growth. We are waiting for a few more to burst through. Please look forward to getting plants this week if yours is not already home.

★ Weather

- The weather is getting warmer, but sometimes it is still cool out in the mornings. Please be prepared with a sweatshirt for those in between temperatures.

★ Here's what we will be learning this week:

- Math we will be counting money and reviewing.
- Science we continue our study of plants.
- Music we will work on our song for graduation and using boomwhackers for songs.
- Christ Light we will learn about the coming of the Holy Spirit on Pentecost.
- Physical Education we will continue floor hockey.
- Superkids we will be learning soft C and soft G, new memory words, writing poems, and review parts of speech.
